

Quarterly Newsletter

President's Message

Well, it certainly has been an interesting start to the New Year. With the current political climate, I wanted to take a minute to remind everyone that, as educated veterinarians, it is our duty to help those who do not have as a deep of a knowledge base – our animals. Whether our focus is on companion animal medicine, production, research, or wildlife, we took an oath to help protect animals. The current administration has been blocking some important legislation and is talking about putting forth legislation to dismantle the endangered species act along with other changes that could be very detrimental to animals in the United States and the world.

This is an important time to speak out to our senators and congressional representatives to let them know that these changes will not fall under the radar. Below is a summary of current legislative issues and contact information for our San Francisco representatives, I urge you all to contact them regarding these issues.

If you want to be even more involved in making a change, please consider reaching out to the CVMA-PAC or the AVMA-PAC. Donations and time are always needed and we will need these committees to be working at full capacity for us and most importantly- the animals we have chosen to help.

Regardless of the differences between Democrats and Republicans, your feelings on immigration, refugees, pipelines, and treatment of women and minorities, I think that these are issues we can all stand together on as veterinarians.

President

Robin Kelly, DVM

Current legislation and changes to government agencies:

- ❖ USDA Animal Care Search tool deactivated – this means you can no longer easily search for records of animal abuse (corporate or otherwise), it now has to be requested through the freedom of information act which can take months – years.
<https://www.aphis.usda.gov/aphis/ourfocus/animalwelfare/>
- ❖ Updated regulation on the Horse Protection Act regarding soring was approved but not yet published at the end of the Obama administration. The current administration has put all unpublished legislation on hold pending additional review. Please encourage our delegates to tell the administration to allow this update to be finalized.
https://www.aphis.usda.gov/aphis/ourfocus/animalwelfare/SA_HPA
- ❖ House Resolution 3174 "Fairness to Pet Owners Act", Bill #S.1200
Creates mandatory prescription writing for veterinarians
<http://www.capwiz.com/cvma/issues/alert/?alertid=71637626>
- ❖ Changes to the Endangered Species Act are being rumored. Since endangered species are sometimes cited as a reason why construction projects (such as a giant wall) cannot go forward animals currently protected by this act may lose protection under the current administration. Please remind our representative that this will not be acceptable.
<http://www.newsweek.com/how-endangered-species-may-fare-under-trump-542019>
- ❖ Changes to the EPA – with a head of the EPA who has sued the agency multiple times and is a climate change denier we know that we are in for some changes (such as the blocked implementation of the Stream Protection Act allowing coal run off to be dumped into rivers and streams). Change to the environment will affect many endangered wildlife species, we need to remind our representatives that diversity is important and that there is a reason there is already a limit to how much fish you should eat (have they forgotten about mercury already?)
<http://www.snopes.com/2017/02/06/dump-coal-waste-into-streams/>

San Francisco Representatives:

Senator Dianne Feinstein: (202) 224-3841

Lauren A. England, DVM, MPH

Veterinary Medical Officer

USDA APHIS Veterinary Services, Northern CA

Lauren England is a 2013 graduate from Kansas State University CVM. She also received her Bachelors in Animal Science degree and Masters in Public Health degree from Kansas State University. While in vet school, Lauren received the Saul T. Wilson Scholarship which led to a job as a Field Veterinary Medical Officer with National Import Export Services in Northern California.

***This presentation will count as a credit towards NVAP (National Veterinary Accreditation Program) renewal and she will also demonstrate how to use the USDA's new pet travel website

SFVMA News

Leptospirosis in Bay Area

There has been an apparent increase in the incidence of leptospirosis across the country, including within San Francisco. Please be keep this in mind when presented with dogs showing possible clinical signs (fever, lethargy, gastrointestinal upset, renal failure with or without liver failure). Consider discussions about preventative measures with at-risk pets, and remember that this is a zoonotic disease. If you have a suspected or confirmed case, please email Katie Kennedy at sfvmasecretary@gmail.com; SFVMA will be tracking the incidence and report back.

2017 SFVMA Membership

Now that we are solidly into 2017, don't forget to pay your SFVMA membership dues. Annual membership dues are unchanged at \$230/doctor and continue to include dinner at all 4 CE meetings at the Cliff House and a 25% discount for newsletter advertisements. Please complete the Membership Application on the website; payment can be submitted by credit card via PayPal or by check. Any questions or concerns can be directed to Katie Kennedy at sfvmasecretary@gmail.com

2017 RABIES CLINICS:

March 5

June 11

September 10

December 10

Rabies Clinics

Thank you to all of the volunteers that continually make these clinics a success and to those of you who have already signed up for a 2017 clinic. Volunteers are still needed for the September and December Rabies Clinics. Please email sfvmapv@gmail.com with your information to sign up for a clinic. Rabies clinics will be held at Animal Care and Control (ACC), 1200 15th Street (at Harrison) on from 10am-1pm. Please contact [Anna DeVincenzi](#) if you have any questions or would like to volunteer.

Land's End Hike on March 19th

SFVMA will be organizing a hike (beginner's level with great views) at Land's End on Sunday, March 19th at 10am. All are welcome, including guests, to come socialize and enjoy the sunshine (hopefully!). If you are interested in attending, please email Robin Kelly at sfvmapresident@gmail.com for further details.

Website Redesign

Thank you to Tracy Cronin for her volunteering her time and effort these past years in maintaining the SFVMA website. Recently, we have gone through a complete overhaul of the website, newsletter, and even a new logo. Hopefully, this will allow more mobile access and additional resources for our members in the future (an archive of CE presentations, forum for discussing trends or reporting an increase in disease incidence, etc.) Please be patient with us as we launch these newest improvements. Any questions or feedback can be sent to Katie Kennedy at sfvmasecretary@gmail.com

Sponsor a Future Meeting

In order to continue to contract with the Cliff House as our meeting venue, support our charitable and scholarship funds, and generally maintain the organization (with keeping dues payments reasonable), the Board will continue to seek sponsorships that help to cover the costs of our programs.

If you are interested in sponsoring a future meeting, please contact [Robin Kelly](#).

San Francisco Aid for Animals
A Project of the San Francisco Veterinary Medical Association

We are excited to announce the introduction of the Tauber Fund for Pets (TFP) that allows veterinarians participating in our Grant-in-Aid (GIA) program to access supplemental funds outside the GIA program. Details on how participating veterinarians can utilize TFP funds will be distributed in the coming weeks. Funding for this program can provide up to an additional \$5000 per case over the GIA match and we hope will allow us to help save those pets whose medical bills far exceed our current GIA program. If you feel you may have an urgent need for these funds, please contact board member Ken Linton at:

ken@sfaidforanimals.org.

In other news we are happy to report that so far this fiscal year we have helped save thirty-two pets and awarded grants of over \$23,000. We thank you for your continued participation. Phil Durfee

SFVMA Scholarships

Veterinary Students

If you know a good candidate for 2016, please encourage them to apply. Applications are accepted from October to December annually as determined by the college. Requirements are: current enrollment in the vet med program, current or former employment by an SFVMA member, and a letter of recommendation from the same. Interested students can contact:

Hnouzong Her
Scholarship Accounting
UC Davis School of Veterinary
Medicine
hher@vetmed.ucdavis.edu

We will also offer a scholarship at Western University next year.

Requirements are: current enrollment in the vet med program, current or former employment by an SFVMA member, and a letter of recommendation from the same. Interested students may contact:

Tim McPheron
Director of Development
College of Veterinary Medicine
tmcpheon@westernu.edu

RVT Students

To support and encourage RVTs in San Francisco, the SFVMA has established a scholarship program for students enrolled in an accredited RVT program. We will award \$1000 to 2 candidates who are currently or have previously worked in the practice of an SFVMA member, and have a stated desire to return to SF after graduation. Submissions should include a personal statement from the student, a letter of recommendation from the veterinarian, and proof of enrollment at an accredited RVT program. The deadline for applications is **May 1** annually. Questions should be sent to Katie Kennedy at sfvmasecretary@gmail.com.

Announcing a New Option in Veterinary CE!

Each of our destination seminars includes a welcome cocktail reception, gourmet breakfast, discounted rates at 5-star hotels, 15 hours of continuing education hours and world renowned speakers. All locations provide a fabulous vacation!

[REGISTER NOW](#)

Dr. Joel Beth Mitchell Navratik (UF Class of 1993) and Mr. Jack Karson have created a new option in Veterinary CE. Small intimate class sizes at fabulous 5-star resorts in a vacation setting. Each session is 15 hours over 3 days. Five hours of CE per day with the rest of your free time to explore the region and recharge. This is guilt free time. We will also be offering the seminar at a discounted rate (\$100 off) for classes that decide to incorporate their class reunion into a seminar. Then your reunion is tax deductible as well. I have the top speakers in the country and we have 2 Florida locations for 2017, South Beach and Islamorada The Florida Keys. There is a cocktail hour on the first event night and full gourmet breakfast included in the seminar registration of \$725 with 90 advance notice. Space is limited. Visit our website www.vetvacationce.com to see all 9 locations available for 2017! Hope to see you there.

We look forward to seeing you on your next VET VACATION!

Post Jobs | Hire Vets
No fee until you hire!

VetRelief.com, a convenient way for doctors and hospitals to match their employment expectations. Here is how it works:

HOSPITALS: create an account, then post your jobs which include a job's dates, shifts, and your project's description. Relief veterinarians will bid on your jobs. Login to your account to discover and reply to their interest and bids in your employment opportunities. Copies of their bids will go to your email and/or fax, too.

DOCTORS: create an account, search jobs, view the project's details, then submit your bid online.

Doctor and Hospital: together, you may negotiate conveniently and securely via VetRelief's web site to align and ensure a good match. There is no obligation to hire. Hospital pays each hired vet.

VetRelief's success fee is invoiced and paid separately after a doctor works.

Learn more at www.vetrelief.com, smarthire@vetrelief.com, call or text 949-899-(VETS)8387.

Want to do something that saves lives, feels good and helps your community? Then volunteer to help animals when disasters strike in California!

Thousands of animals need care during and after disasters. Some 63% of California households have pets, including an estimated 10 million pet cats, nine million dogs, and one million horses. Other pets, farm animals, and wildlife also need assistance during and after disasters like earthquakes, floods, and wildfires.

Veterinary professionals are vital to animals during disasters. The mission of the California Veterinary Medical Reserve Corps (CAVMRC) is to provide veterinary professionals with the training and credentialing necessary to support animal health and public health.

Deployment is always voluntary. Volunteers get involved at whatever level works for them – assistants are needed as well as leaders, part-time responders are as welcome as those who can help out for a week or two, plus there are ongoing roles in areas such as planning and disaster response. Volunteer participation can be a matter of life or death for rescued animals and means the world to the owners of those animals.

Benefits of joining the CAVMRC

The CAVMRC provides veterinary professionals:

- Credentialing necessary to support animal health and public health emergency response.
- Continuing education and training opportunities that allow you to strengthen your skills to better serve your practice, your community and our state.
- Networking and information sharing opportunities with veterinary team members across the state.

Who can join the CAVMRC?

You don't need any prior disaster response experience or training to join the CAVMRC. The entire veterinary practice team is welcome, including:

- ◆ Veterinarians
- ◆ Registered veterinary technicians
- ◆ Veterinary assistants, office managers and all support staff members
- ◆ Students in veterinary medical programs
- ◆ Retired veterinary professionals with a current license

Program Affiliation

The CVMA registered the CAVMRC as a unit of the Medical Reserve Corps under the California Emergency Medical Services Agency and works in cooperation with local, statewide, and national agencies. The CVMA has played an important role in preparing for and responding to disasters in California since 1994 and builds on this experience with this new affiliation.

For more information visit the [CAVMRC website](#).

North Peninsula Veterinary Emergency Clinic in San Mateo is seeking a full time veterinarian. We offer the opportunity to practice high quality medicine with a great team in a recently renovated facility. Our doctors enjoy great benefits and an unbeatable lifestyle.
